LISTEN TO THE CALL

Becoming a mother is your rite of passage

Be brave and your helpers will appear

Motherhood is your pathway to grow

Your story as a mother is a unique story of adventures, hardships and joy. A tale of personal growth, development and transformation.

Thumbelina, the Princess and the Frog, Cinderella, the good girl in Mother Holle, Dorothy in the Wizard of Oz and Alice in Wonderland are all familiar to us. The heroine receives a call and leaves behind the ordinary world of the past. Initiated to a new stage of life, she goes through a journey of trials facing great dangers on her way. At the end of her adventures she finally returns home with her elixir, her true gift. By the end of the story her personality is completely transformed and she becomes a more mature person, she finds her true self and mission in life.

Traditional Earth-based cultures acknowledged transitions from one human life stage to another and formed collective rituals. As women we live a cyclical life. Our first menstruation is a crossing from being a girl to becoming a fertile woman. Our first childbirth marks the threshold from the phase of being a woman to becoming a mother. With wisdom and age women cease to menstruate, and cross into the season of elder women in their full power. As nowadays we live much longer than our ancestors, there is a potential to spend a good few years in our last phase of life, when our accumulated wisdom could serve others. With each life season there is a rite of passage that marks the end of one stage and brings about a new one. These initiations ensure that we, as women are reborn again and again to fully live each stage of our lives.

Reflective questions

What life event was your passage from being a girl to becoming a woman?

Can you remember your call to become a mother?

If you look at your mother journey so far, what is the most meaningful thing you have learnt?

Activity

Draw a circular drawing of your life journey (including the period you have lived and life ahead of you), and mark the life stages you have lived: what were the most meaningful lessons? Mark the stages ahead of you: what are your aspirations for those life stages?

WORKING OUTDOORS

Becoming a mother brings the integration of our feminine side. Feminine energy can be found all around us in nature. It is the aspect of the sustainer, and a key concept of ecological sustainability. A secondary goal of creating this guide is to help mothers to reconnect with the more-than-human world, getting in touch with the natural environment. We strongly encourage you to find a venue with some outdoor space to enable the group to go outside for some of the activities. Next to the description of each outdoor exercise you will see this symbol.

Here are two testimonies from previous participants, Andree and Fruzzina from Hungary:

"The idea of outdoor walk first sounded strange, then it felt so good, I realized that nowadays I never walk aimlessly".

"Outdoor walks made me realize how little time I spend on nourishing myself, and how recharging a few minutes spent alone can be."

HOW TO CREATE SAFE SPACE FOR THE GROUP

Use the guidelines below on creating a safe space and starting a positive group culture in the first session.

SET THE TONE

by stating that it is a safe and secure place to talk about ourselves, to listen respectfully, to connect, to open up or to remain silent. Point out that participants as mothers share a common path or period of life and we are there to support each other.

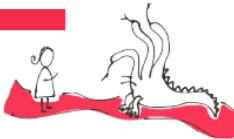

PARTICIPATION IS VOLUNTARY AT ANY MOMENT DURING THE MEETINGS.

It is important to invite people to say, share and act in a way that is right for them in the moment. Anyone is free to take a step back from any of the suggested activities. Your role as facilitator is to invite and accept this voluntary participation, so that participants don't feel under pressure.

SESSION 3

BEFRIEND YOUR DRAGONS

TOPIC

The journey of motherhood, trials, hardships and helpers

LENGTH

120-180 minutes

MATERIALS

- Mother Nature Card Deck
- Artwork materials: paper, paints/oil pastels/markers/coloured pencils, magazines for collage
- Other creative materials may be used for art activities: natural objects, building blocks, clay, etc.
- Activity book

PREPARATION OF THE SESSION

Please cushions in a circle. In case you have children present, make sure everything is child-friendly. Prepare drinks with glasses for everyone. Depending on the weather and the logistics and proximity of the indoor and outdoor spaces you may invite participants to meet outside and start your session there.

ARRIVAL

Allow 10 minutes for people to arrive and feel comfortable before you start the activities.

MINDFULNESS EXERCISE

Brief intro.

"Before we start this session I want to invite you to a 5-minute mindfulness exercise. As well as helping us to settle in this space it also has the purpose of helping us disengage from and slow down the constantly circulating thoughts in our heads. It's about arriving and perceiving the present moment whatever this may include for you today."

Instruction.

"Please sit comfortably and close your eyes or fix your gaze about a meter in front of you on the floor."

Note to facilitator: Every minute give the participants a new question. Start with:

"Ask yourself where am I right now? How am I in this moment?" (1st minute)

Now turn your attention towards your breath without intentionally changing it. Try to

A projekt nem formális tanulási módszertana:

Anyává válás és anyaság: INFORMÁLIS TANULÁS

Az anyák a NEM FORMÁLIS TANULÁS eszközei és reflexiós folyamatok révén:

- Támogató közösséget találnak és alkotnak
- Felismerik a nehézségeiket
- Tudatosítják szükségleteiket és erőforrásait
- Fejlesztik kommunikációs készségeiket
- Elismерik és validálják új kompetenciáikat
- Integrálják az anyaként tanult “soft skill”-jeiket
- Rálátnak arra, ha további támogatásra van szükségük
- Erőforrásokat merítenek a hétköznapokhoz

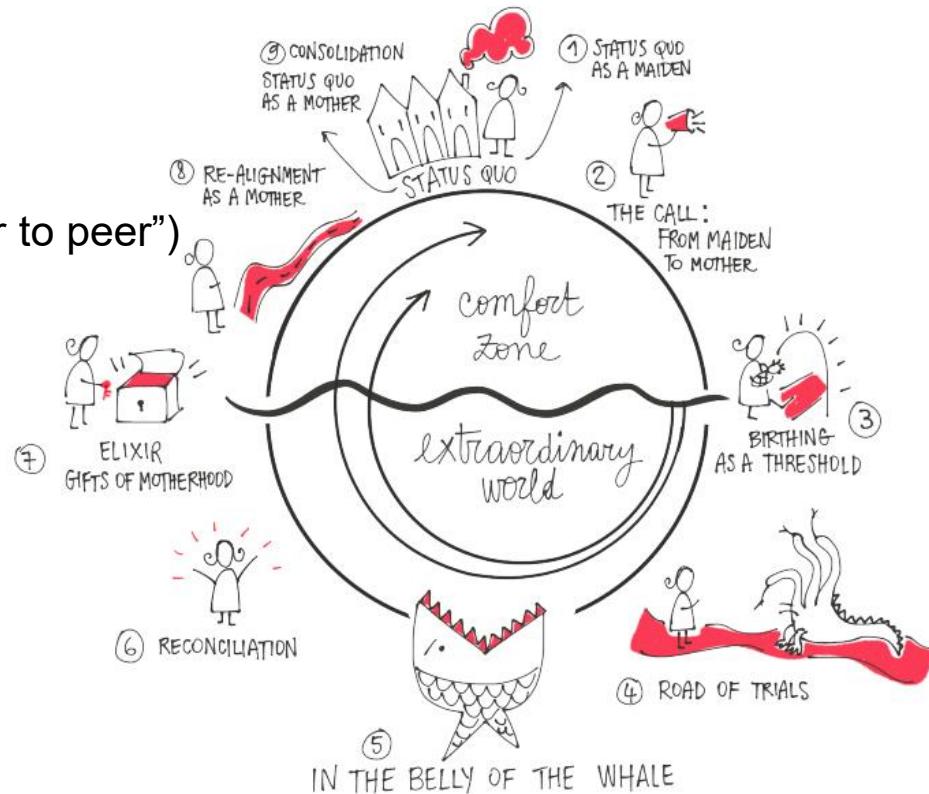

Szakemberek támogatása:

- Szakmai kompetenciák tudatosítása: mi az a szélesebb szakmai közeg, amiben hálózatokat építhetnek (kik az anyákkal foglalkozó “szakemberek”?)
- Közösséggépítés: nemzetközi közeg mint háttér támogatás
- Szakmai kompetenciák fejlesztése (facilitátor képzés - a jövő)
- Kész módszertani anyag átadása segédletekkel (kártyacsomag és könyv)

Alkalmazott nem formális tanulási módszerek:

1. Blended mobility training (Pilot Training)
2. "European Launch" online felkészítés
3. Joint Staff Training ("Train the trainer")
4. Mother's Journey anya csoportok ("Peer to peer")
5. Facilitátor képzés (kidolgozás alatt):
